REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: Claims 1-3, 6-8, 11-13, 16-18, and 21-24 are allowable due to the inclusion, within the context of the claims as a whole, of the limitations of "reading a fault deferral indication that is true if faults caused by corruption of memory values can be deferred, the fault deferral indication being set before the corruption of the memory value is detected... if the fault deferral indication is true and the speculative load indication is true, then providing an error indication that the returned memory value is invalid... otherwise attempting to correct the corruption of the memory value, and if the corruption of the memory value is correctable, then returning control of the machine to the executing program, otherwise transferring control of the machine to exception-handling code."

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
